# NPL PORTFOLIO

## NPL ratio on low level

### Non-performing loans – regions

€ mn (EaD, Basel III)

- Non-performing loans (NPLs) stable q-o-q – 3 new additions of US loans (€ 137 mn) mainly compensated by removal of 1 US office loan (€ 116 mn, in forbearance cure-period) and 1 German residential loan (€ 3 mn)
- NPL ratio (EaD)<sup>1</sup> of 1.6% remains stable on low level (12/22: 1.6%)

1. Non-performing exposure ratio = Non-performing loans and bonds / total portfolio (EaD) / NPL ratio (EBA definition) 03/23: 2.2%, 12/22: 1.9% (NPL ratio = gross carrying amount of non-performing loans and advances (incl. loans in forbearance cure-period) / total gross carrying amount of loans and advances) Note: Figures may not add up due to rounding

## NPL PORTFOLIO

## NPLs ≠ risk provisioning

- Overall NPL levels remain moderate and largely without additional loan loss provisions due to conservative risk positioning
- NPL coverage ratio regularly underscores collateral position: NPLs are sized as loan amount minus actual collateral value – the effective coverage ratio adds up to 100%
- Especially in the US: NPLs do not necessarily result in risk provisioning – impairment tests frequently indicate no or no major provisioning needs, e.g.
  - breach of tight (hard) debt yield covenants triggers default (and NPL) but interest is being paid and collateral value might still be sufficient
  - US specific extension structures (short base duration plus extension options) increase prolongation risk while cash flow for interest and valuation is still sufficient
- Last months have seen higher additions to NPLs especially in US Office exposure while some loans could be cured and put back into regular portfolio with low levels of risk provisioning required

# ESG

## ESG at core of pbb strategy and brand

### ESG Programme

| Moody's ESG Solutions | Score 43 (limited) | Score 44 (limited) | Score 50 (robust) |

- ESG at core of pbb's strategy:
  - pbb can make a real difference, reducing the real estate sector's significant CO<sub>2</sub> impact
  - Green finance bank and transformation partner
  - Active portfolio steering with initial roadmap to align CRE portfolio with Paris 1.5 degree target by 2045/2050
- ESG risk structurally integrated in risk management landscape and overall business strategy
  - Comprehensive monitoring of physical and transitional risks in REF exposure – portfolio & individual loan basis
  - ESG risk assessment integral part of credit process
- Comprehensive ESG programme implemented
  - Management Board responsibility – ESG targets part of remuneration
  - Operationally, all ESG dimensions covered with clear responsibilities assigned
- Progress acknowledged by regulator, ESG rating agencies and capital markets

# GREEN FINANCE

## Become the leading green CRE transformation financing partner in Europe

### Strategic Rationale

We set pbb up as sustainable finance bank and real estate transformation partner through a comprehensive ESG programme

ESG being a responsibility and opportunity at the same time

We establish pbb with sustainability expertise and profile beyond lending

### Measures

#### Green Lending

- We increase **share of financed green properties** in our REF-portfolio with clear business target
- We emphasize **green (development) loans** and green capex facilities
- We build up a comprehensive ESG data gathering and **holistic ESG database**

#### Green Bonds

- We are a **leading issuer of green senior unsecured bonds**

#### Green Consulting

- We want to offer our clients independent and voluntary **consulting services for holistic solutions in green CRE transformation**
- We establish a partnership with ESG-minded **RE developers for advisory services (Groß & Partner)**
- We identify **green leads** through proprietary data tools and create transparency on ESG quality of the pbb loan book

### KPIs

#### Green REF portfolio share<sup>1</sup> (%)

#### Achievement green bonds

1. Green assets according to pbb's green loan framework (Green loan eligible) 2. Based on total REF portfolio; 24% based on scored REF portfolio of 45% as of 31 December 2022 / Green assets according to pbb's green loan framework (Green loan eligible)

# FUNDING AND LIQUIDITY

Focus on resilient and cost efficient Pfandbrief – unsecured funding increasingly shifted into currently more favourable retail deposit base

## New long-term funding<sup>1</sup>

€ bn

- Focus on benchmarks and green refinancing
  - Pfandbrief funding with 1 benchmark and 2 taps
  - Unsecured funding dominated by € 500 mn Green Senior Preferred benchmark in January
- Increasing importance of pbb direkt – focus on term money
- TLTRO – remaining volume of € 2.65 bn to be repaid in 2023/24

- pbb manages its liquidity on a 6-months basis – liquidity buffer must withstand 6-months stress test (vs. 1-month regulatory requirement)
- Comfortable liquidity ratios: LCR 309% / NSFR 117%

1. Excl. retail deposit business and "own-use" Pfandbriefe 2. vs. 3M Euribor 3. Initial weighted average maturity Note: Figures may not add up due to rounding

## pbb direkt – DEVELOPMENT OF VOLUMES

Retail deposits up by 23% to € 5.4 bn  
– ~80% term money

### Development of pbb direkt volume

€ bn

### Retail deposits – maturity profile<sup>1</sup>

31/03/2023: € 5.4 bn

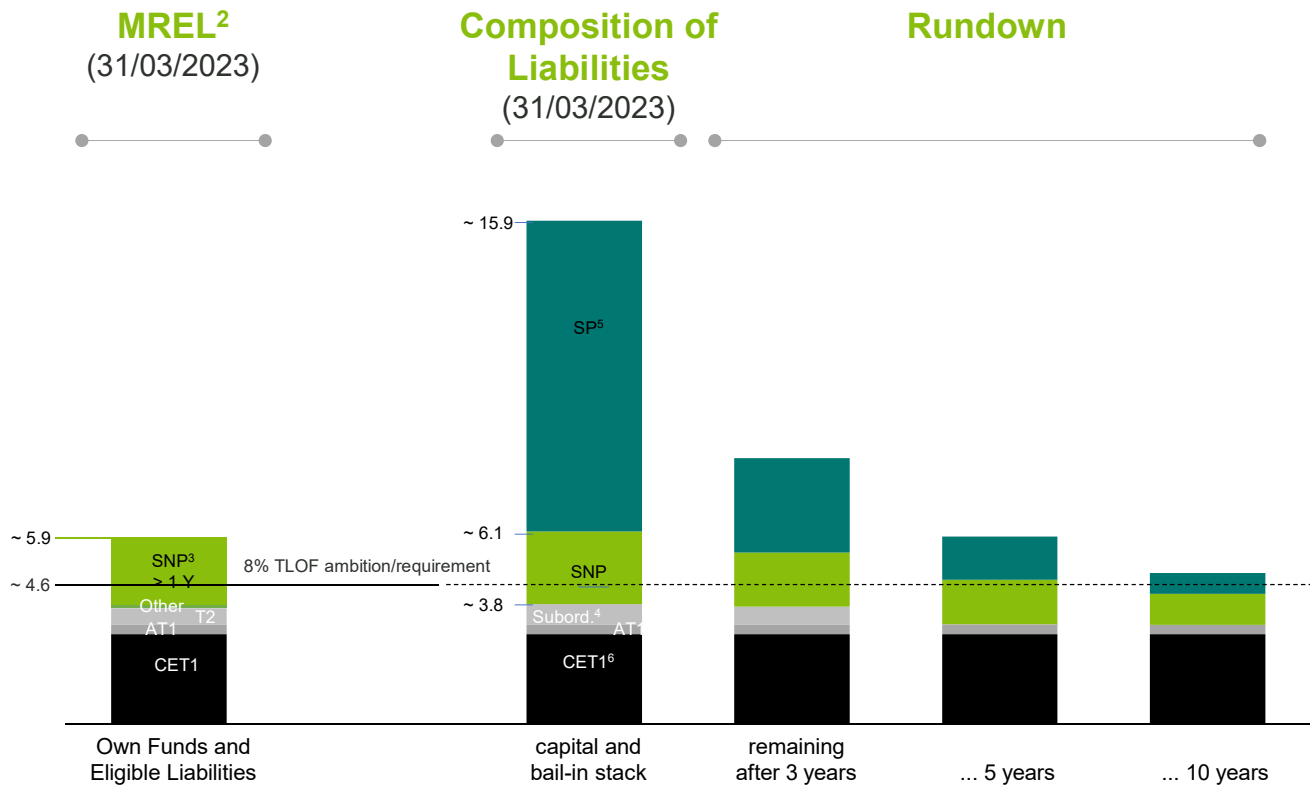

- Number of clients increased by >80% since 12/21, from 41,000 to 75,000 in 03/23 with an avg. deposit amount of € 72,000 per client
- pbb direkt deposits approx. 100%<sup>2</sup> guaranteed

1. Initial weighted average maturity 2. Statutory deposit protection scheme in combination with the voluntary protection scheme of German Banks Note: Figures may not add up due to rounding Note: Figures may not add up due to rounding

# FUNDING

Own Funds and Eligible Liabilities significantly exceed 8% TLOF

€ bn

- Buffer for Senior Preferred (SP) investors due to high volume of capital instruments and Senior Non-Preferred (SNP) liabilities
- Existing Senior Non-Preferred liabilities with long remaining terms
- SP currently predominant senior product, but SNP to remain a key element of pbb's funding strategy
- pbb with MREL-ambition level of 8% TLOF in line with the binding regulatory target
- Regulatory requirements (SREP, MREL etc.) are met

1. After confirmation of the 2022 financial statements, less the proposed dividend 2. pbb has set its ambition level at 8% TLOF with 100% subordination (i.e. Own Funds and Senior Non-Preferred), which is the currently binding regulatory target. As of 31 March 2023, MREL eligible items amounted to ~ 10.3% TLOF (without approved scope from the General Prior Permissions)/~ 34.5% RWA/~ 10.9% Leverage Exposure 3. MREL-eligible Senior Non-Preferred Debt > 1Y according to legal maturities; without prior approval volumes for early termination of investments 4. Nominal amount of Tier 2 instruments; the capital stack includes € 300 mn AT1 issuance 5. Senior Preferred, structured unsecured and corporate deposits (excl. protected deposits) 6. CET1 assumed to be constant

# CAPITAL

## Basel III: RWA

€ bn (IFRS)

1. After approved year-end accounts, 2020 result not included 2. Incl. full-year result, post dividend 2021 3. Incl. full-year result, post proposed dividend 2022 4. Excl. interim result, post proposed dividend 2022 Note: Figures may not add up due to rounding

Strong capital base allows for taking advantage of profitable growth opportunities

- **RWA** already calibrated towards anticipated Basel IV levels (fully loaded)
- Slight RWA increase by new REF commitments and individual internal rating deteriorations mainly compensated by maturity, reclassification and FX effects
- Strong capital base with **CET 1 ratio** of 16.6%<sup>4</sup> provides comfortable buffer
  - for expected rise in RWA from macroeconomic and Real Estate sector uncertainties
  - to take advantage of profitable growth opportunities

- **SREP requirements** (incl. anticipated additional buffer of 90bp):
  - CET 1 ratio: 9.31%
  - Tier 1 ratio: 11.28%
  - Own funds ratio: 13.90%

## SUMMARY

pbb well positioned to weather current market challenges

### 2023 is Year of Investments

- Speedy implementation of strategic initiatives
- Managing increasingly difficult markets risk-wise
- Keeping operative track

### Q1/23 in line to reach full-year guidance 2023

### Significant growth in retail deposits to support NII especially in H2/23

### Increased avg. gross portfolio margin to be maintained and further augmented

### Stage 1&2 risk provisioning (loan loss reserves) calibrated towards demanding market environment in 2023 – should keep new provisioning low

## Challenging market environment – further decline of CRE investment volumes in Q1/23

### European and US Investment volume<sup>1</sup>

(€ bn)

### European Prime Rents (2007=100; LHS) and Prime Yields (RHS)<sup>2</sup>

1. All property types. Based on independent reports of properties and portfolios over € 5 mn (over \$ 2.5 mn for US), USD to EUR = end years FX rates  
Source: Real Capital Analytics (RCA) 2. Source: pbb Property Market Analysis (PMA) as of April 2023

- European and US CRE investment volumes remain on very low level in Q1/23
- Ongoing difficult investment environment – prices expected to bottom out Q4/23 or early 2024
- Europe:
  - Prices are falling across all asset types as a reflection of weak investment demand
  - Prime office yields have already edged up and are expected to move out further in all markets
  - Logistics expected to see relatively large price decreases while residential values are expected to decline less
  - Hotel / Retail: slow return of prime transactions after significant price corrections
- USA:
  - Challenging combination of higher interest rates, structural vacancies due to work from home and overall turmoil around regional banks and debt ceiling
  - Very selective underwritings with prime sponsors at low LTV and sufficient debt yields

- Weak fundamentals esp. for the US Office market with high vacancies but significant discrepancies between regional markets and sub-segments
  - Prime properties in A-locations still with visibly higher presence in office and lower structural vacancies than average
  - Fundamentals primarily driven by: interest, “working from home” quota, ESG compliance and location
- Valuations of Office and – to a lesser extent – Logistics properties presently subject to significant corrections – dependent on regional and structural differences
- While serious concerns regarding US real estate markets prevail, US markets expected to recover relatively fast compared to most European markets

### US NPL portfolio

31/03/2023: € 320 mn (EaD, Basel III)

- 6 NPL loans
- Total volume € 320 mn
- Only small risk provisioning of € 7 mn necessary

# RISK MANAGEMENT

Risk mitigating fields of action for pbb in worsening credit situations

- **Conservative risk positioning**, strong **covenant structures**, close **monitoring process** and intensive **client dialogue** allow for early action in case of worsening credit situations
  - pbb as senior lender **always in first rank** (cash flow/ mortgage) – secured by SPV structure
  - **Broad fields of action** to mitigate risks
- **Focus on individual case by case solutions**
  - Agreements often include **support elements from sponsor**
  - **No negative impact on net present value** as key prerequisite

# MONITORING PROCESS

## Multi-level valuation review process

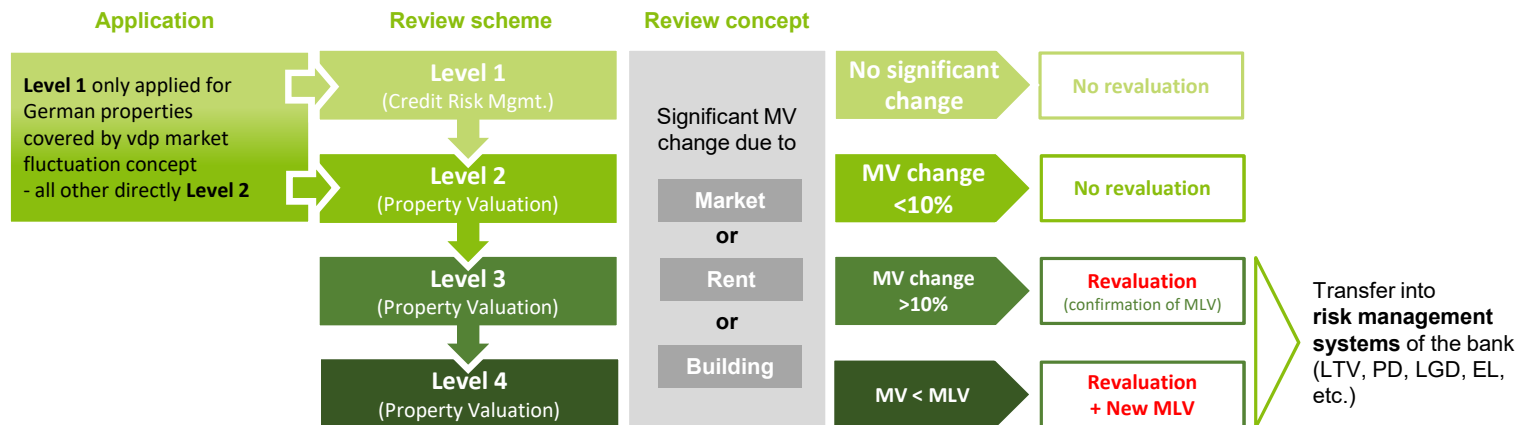

- ▼ **Regular annual review** (Level 1/2) – revaluation mandatory in case of significant changes (Level 3/4)
- ▼ **Mandatory revaluation** (Level 3) **after 3 years**

### In addition, reviews on a continuous basis:

- **Event triggered review** – revaluation mandatory in case of significant changes (e.g. special events/reasons, extreme market fluctuations, transfer to watchlist, default)
- **Credit review** (e.g. covenant testing, credit rating screening, tenant monitoring, early warning signals, forward-looking assessment)
